Families may not be together when an emergency happens.

- Meet with your family and discuss how to prepare for different types of emergencies. Decide how you will communicate with each other. Who will be your out-of-town contact if local phones are affected?
- Create a paper copy for your family of the contact information for other important people and office phone numbers for doctors, school and pertinent service providers.
- Make sure everyone carries a copy in a backpack, purse or wallet. (Use the card below to get started and make copies for everyone) Also post the information in a central location in your home on your refrigerator or family bulletin board.

Family Communication Plan

Local Contact Name _____

Local Telephone _____

Out of Town Contact _____

Telephone (_____) _____

Neighborhood Meeting Place _____

Meeting Place Phone (_____) _____
